SUMMARY

Driven B.Tech Computer Science & Design student (4th Semester) passionate about building scalable, interactive, and user-focused software solutions. Strong foundation in JavaScript, React, HTML, CSS, Python, and Computer Vision, with practical project experience in web development and Python/OpenCV. Familiar with SQL, Git/GitHub, Data Structures & Algorithms, Figma, and software design patterns. Demonstrated ability to learn new technologies, translate ideas into functional applications, and approach problems with a development-focused mindset. Currently seeking a Software Development or Front-End Engineering Internship to gain industry exposure and contribute to impactful products.

TECHNICAL SKILLS

Languages	Python, C, JavaScript, SQL
Web Development	HTML5, CSS3, JavaScript (ES6+), React
Tools & Platforms	Git, GitHub, Figma, VS Code
Computer Vision	OpenCV, Python-based image processing
Core CS Concepts	Data Structures & Algorithms, Object-Oriented Programming
Design	UI/UX Design, Wireframing & Prototyping (Figma)

PROJECTS

Assistive Vision System | *Python, OpenCV*

- Built a real-time assistive tool using Python and OpenCV to help visually impaired users identify obstacles and surroundings through live video processing.
- Implemented image-processing pipelines for object and surrounding detection, improving situational awareness and user safety.
- Designed the solution with accessibility as the core requirement, translating visual input into actionable feedback for the end user.

EDUCATION

Bachelor of Technology in Computer Science & Design

Atria Institute of Technology, Bangalore
CGPA: 7.5 | Expected Graduation: 2027

CERTIFICATIONS

- Python Development – Infosys Springboard
- Python Programming – Infosys Springboard
- Data & Design Processing – Infosys Springboard
- Network Fundamentals – Infosys Springboard
- Design Patterns – Infosys Springboard

CORE STRENGTHS

- Fast learner who quickly adapts to new tools, frameworks, and technologies
- Strong collaborator with a positive, solutions-oriented approach to problem-solving
- Detail-oriented with a growing foundation in data structures & algorithms
